1 **finstmt Q&A 12/14/2020**

- Should we be worried about the data that did not get extracted in finstmt?
- Could you show finstmt being used with xlwings?
- Is the copy function only in finstmt?
- Could you give an example of how to take specific values out of finstmt? E.g. the revenue for the 3rd forecasted period.
- How can I see the effects of adjusting the financial statements manually?

2 **Project 4 Q&A 12/14/2020**

- What are the variables I should include in the Monte Carlo simulation?
- Should I use annual or quarterly financial statements?
- How should I approach the write-up around the forecasting assumptions?
